

## **INTRO**

"<greetings>, I'm R Prabhakara arjun, **currently pursuing** a Bachelor's degree in Computer Science and Engineering at the Madras Institute of Technology, Anna University, with an CGPA of 8.64. **My academic journey has equipped me with a strong foundation in** various programming languages, including C, Java, Python and HTML,CSS and JS.**I am currently expanding my skillset** on ML and web development.

**My experience with databases spans SQL.**

I am **proficient in using tools and platforms** like Git and canva.

I have had the privilege of organizing an intra-college event, *Oops Odyssey*, as part of Trigger. I also participated in a 24-hour hackathon, where I got to dive deep into problem-solving. My passion lies in problem solving, debugging and analyzing problems to uncover solutions.

My achievements include being a consistent coder for the past four months on LeetCode, where I have solved over 590 problems! I got into interview round of amazon!

I have a **deep interest** in computer science and I am **ambitious** as a engineer. Being a **hands-on learner**, makes me suitable for any kinda of role. **One of my notable quality** is the ability to adopt, time punctuality and leadership quality.

My project work include phishing detcection,tic-toe-bot,car parking management.
